

FIGHTING FOR ASIAN AMERICANS, NATIVE HAWAIIANS, AND PACIFIC ISLANDERS

Donald Trump stokes anti-Asian hate and violence

Vice President Harris is advancing justice and opportunity for Asian American, Native Hawaiian, and Pacific Islander (AANHPI) communities, whose diverse cultures, languages, and religions enrich America and its role as a global leader. She's lowering costs, keeping communities safe, and standing up to Trump's attacks on our freedoms. In Minnesota, Governor Walz is tackling child poverty, investing in education, and improving access to health care.

Donald Trump plans to jack up prices, weaken the middle class, cut Social Security and Medicare, and end the Affordable Care Act. Project 2025 would give him unprecedented control to implement his destructive agenda. His plans would increase costs for families by at least \$3,900 a year by slapping a Trump sales tax on imported everyday goods that AANHPI families rely on, like gas, food, clothing, and medicine.

THE CHOICE:

Building an Opportunity Economy for AANHPI Families

Under Vice President Harris' leadership, a record-high \$55 billion in federal contracts has been awarded to AANHPI-owned businesses, spurring an AANHPI-owned small business boom.

Trump's hateful rhetoric about Asian Americans led to discrimination against AANHPI small businesses.

Vice President Harris helped create nearly 2 million good-paying jobs for AANHPIs, achieving the highest AANHPI employment rate since 2008.

Under Trump, the Asian American unemployment rate nearly doubled.

Vice President Harris cast the tie-breaking vote to deliver over \$130 billion for K-12 schools—the single largest-ever investment in public education, helping schools across the country reopen safely, increase teacher pay, and support learning recovery.

Trump's Project 2025 agenda will defund the Department of Education.

Vice President Harris is helping to invest \$5 billion to support AANHPI serving institutions, their students, and educators as part of the largest investment in higher education in history.

Vice President Harris and Governor Walz have a plan to help more small businesses start, innovate, and expand.

- **Providing a dramatic 10-fold expansion of tax relief** for starting a small business by increasing the startup expense deduction from \$5,000 to \$50,000.

- **Making it easier for small businesses to operate and expand** by cutting unnecessary red tape, simplifying tax filing for small businesses, and reducing barriers to getting occupational licenses across states.
- **Helping existing small businesses grow** by providing low- and no-interest loans to small businesses that want to expand, boost access to venture capital, and support innovation hubs and business incubators.
- **Setting a goal of 25 million new business applications in her first term.**

This builds off Vice President Harris' work to increase the number of contracts awarded to minority-owned businesses by 50 percent.

THE CHOICE:

Lowering Costs for AANHPI Families

Vice President Harris helped lower the costs of healthcare.

- **Capping the cost of seniors' insulin at \$35** and lowering prescription drug prices for over 2 million AANHPI seniors.
- **Reducing health insurance premiums,** with the uninsured rate for the AANHPI community now at a historic low of 5.1 percent.
- **Trump and his Project 2025 agenda will increase prescription drug prices and end the Affordable Care Act.**

Vice President Harris and Governor Walz will fight to lower costs for families.

- **Cutting taxes for families by expanding the Child Tax Credit**—up to \$6,000 for working and middle-class families during a newborn's first year, and then up to \$3,600 after that, while expanding the Earned Income Tax Credit to cover more people in lower-income jobs by up to \$1,500.

- **Trump lacks any coherent plan for reducing child care costs. One of his top economic advisors trashed the Child Tax Credit, which lifted millions of children out of poverty.**
- **Bringing down mortgage and rental costs** by building 3 million new homes to address the housing supply shortage, providing \$25,000 in down-payment assistance to first-time homebuyers, and taking on corporate landlords that buy up homes and keep rents high.
- **Lowering grocery costs** by promoting competition and advancing the first-ever federal ban on price-gouging on food and groceries for companies that exploit crises and break the rules.
- **Ensuring that no family earning under \$400,000 per year pays a penny more in taxes.**
- **Vice President Harris will protect Social Security and Medicare and strengthen them for the long haul.**
- **Trump will put Social Security on the chopping block—as he tried to do repeatedly in his first term.**

THE CHOICE:

Ensuring Safety and Justice For All

As a prosecutor and Attorney General of California, Vice President Harris reduced violent crime by increasing conviction rates for violent crimes and by getting illegal guns off the street. As Vice President, she has helped produce a 50-year low in violent crime and the largest drop in murders ever.

In office, Trump oversaw the largest spike in murders in history.

Vice President Harris helped deliver the largest investment in public safety ever, investing \$15 billion to support local law enforcement and community safety. Governor Walz delivered \$300 million for public safety departments across Minnesota.

Vice President Harris beat the National Rifle Association (NRA) to pass the first major gun safety law in nearly 30 years to expand background checks, and now she leads the first-ever White House Office of Gun Violence Prevention to implement the law. In Minnesota, Governor Walz established universal background checks and red flag laws.

Trump bragged to the NRA he “did nothing” to reduce gun violence, and after a school shooting in Iowa, he said “get over it.”

Vice President Harris helped enact the COVID-19 Hate Crimes Act. In Minnesota, Governor Walz has made a special effort to support the large Hmong community settled in the state.

Trump called COVID-19 “Kung Flu” and “The China Virus” which led to an increase in anti-Asian attacks.

THE CHOICE:

Securing our Border and Fixing our Broken Immigration System

Vice President Harris and Governor Walz believe in tough, smart solutions to secure the border, keep communities safe, and promote a fair and just immigration system. As Attorney General of California, a border state, she went after

transnational gangs that smuggled weapons and drugs across the U.S.-Mexico border. As Vice President, she supported a bipartisan solution with some of the toughest reforms at our border in decades—which Trump killed to help himself politically.

Trump calls immigrants “animals” and says they are “poisoning the blood of our country.”

After Trump killed the border deal, Vice President Harris took bold action. Now, border crossings are at the lowest level in four years, the Biden-Harris Administration is seizing record amounts of fentanyl, and secured funding for the most significant increase in border agents in ten years.

If Trump is re-elected, he will deploy the military to round up and separate millions of families.

As President, Vice President Harris will bring back the bipartisan border security bill and sign it into law. At the same time, she knows that our immigration system is broken and needs comprehensive reform that includes strong border security and an earned pathway to citizenship.

THE CHOICE:

Safeguarding Our Fundamental Freedoms and Democracy

Vice President Harris and Governor Walz trust women to make decisions about their own bodies and not have the government tell them what to do. Since *Roe v. Wade* was overturned, Vice President Harris has driven the Administration’s strategy to defend reproductive freedom and safeguard the privacy of patients and providers. As Governor, Tim Walz led Minnesota to become the first state to pass a law protecting a woman’s right to choose following the overturning of *Roe*. As President, she will never allow a national abortion ban to become law. And when Congress passes a bill to restore reproductive freedom nationwide, she will sign it.

Trump brags that he is “proudly” responsible for handpicking Supreme Court Justices who overturned *Roe*, unleashing Trump Abortion Bans in states across the country, putting women’s lives at risk. If elected, Trump will ban abortion nationwide, restrict access to birth control, force states to report on women’s miscarriages and abortions, and jeopardize access to IVF—threatening the rights of 6 million AANHPI women of reproductive age.

Vice President Harris is ready to be Commander in Chief on day one. She has helped restore American leadership on the world stage, strengthened our national security through her four trips to the Indo-Pacific, defended American values and democracy, and advanced America’s interests.

Trump cozied up to dictators and turned his back on allies. He praised Xi Jinping and exchanged “love letters” with Kim Jong Un.

Vice President Harris and Governor Walz are fighting to pass the John Lewis Voting Rights and the Freedom to Vote Acts to stop racial voter suppression and to ensure access to the ballot.

Trump is the only president in American history who tried to overturn an election.
